Our Approach to Specialist Services

Prestige Care management provides services tailored to people with

1. Learning Disabilities
2. Autism spectrum Disorder
3. Mental health
4. Sensory impairment
5. Dementia
6. Physical Disabilities

Learning Disabilities

Our individual support plans enable people with Learning Disabilities to have choice and control over their own lives. We encourage people to achieve their goals in a way that is bespoke to their needs.

Each person we support with a Learning Disability has a person-centred, strengths-based assessment. The assessment highlights their existing abilities and identifies how support staff and specialist support can enhance their day-to-day lifestyle.

Autism Spectrum Disorder:

We develop a profile of the way Autism impacts each person. This highlights their strengths as well as the areas where support is needed. Our Autism profile summarises the diagnostic criteria and creates a picture that is both Autism focussed and person specific. Through this, we can work in a truly person-centred and Autism intelligent way.

We understand people may feel anxious about change. We ensure each person has a transition plan which includes pre-visits, personal information booklets, photos, maps, social stories and schedules to ensure everyone feels welcome as well as comfortable.

Mental Health needs
